Keep Every Dollar Working Hard for You

Corestone works to help you earn more from your idle cash. Each day, the uninvested cash in your portfolio is swept automatically into your choice of sweep accounts. To help capture the full return potential of your equity investments, Gold and Platinum members can also have dividends automatically reinvested in the same securities at no added cost.

Gain a New Perspective on Your Finances

Corestone offers you a complete view of your cash, investments, income and spending in a single account. This way, you can easily track your activity and see your financial picture at a glance. You can see how much your money has earned, what your investments are worth and where your money has been spent.

Gold and Platinum account holders can see enhanced cost basis reports for their investments, as well as expenses sorted by category on monthly statements and year-end summaries. You can save time and streamline your paperwork with online account access and e-delivery for your statements.

Through the SelectLink® service, you can also consolidate all of your brokerage accounts on a single summary statement and view the complete net worth of each account or your entire household. By giving you fingertip access to account information, Corestone helps you make more informed choices about your finances.

Understanding the Protection of Assets

Securities Investor Protection Corporation (SIPC[®]) Coverage

Pershing is a member of SIPC, which protects securities customers of its members up to \$500,000 (including \$250,000 for claims for cash). Explanatory brochure available upon request or at sipc.org.

Excess of SIPC Coverage Through Underwriters at Lloyd's and Other Commercial Insurers

In addition to SIPC protection, Pershing provides coverage in excess of SIPC limits from certain underwriters in Lloyd's insurance market and other commercial insurers. The excess of SIPC insurance program is valid through February 10, 2021 for Pershing LLC accounts. It provides the following protection for Pershing LLC's global client assets:

- > An aggregate loss limit of \$1 billion for eligible securities—over all client accounts
 - > A per-client loss limit of \$1.9 million for cash awaiting reinvestment—within the aggregate loss limit of \$1 billion
- SIPC and the excess of SIPC insurance policy do not protect against loss due to market fluctuation.

An excess of SIPC claim would only arise if Pershing failed financially and client assets for covered accounts—as defined by SIPC—cannot be located due to theft, misplacement, destruction, burglary, robbery, embezzlement, abstraction, failure to obtain or maintain possession or control of client securities, or to maintain the special reserve bank account required by applicable rules.

Lloyd’s currently holds an A+ rating from Standard & Poor’s® (S&P®), an A rating from A.M. Best and an AA-rating from Fitch. These ratings are based on the financial strength of the company and are subject to change by the rating agencies at any time.⁶ For more information about Lloyd’s, please see www.lloyds.com.
